

A way for SOCIAL INNOVATION

Local development agency for a community welfare and fight against social exclusion.

A way for SOCIAL INNOVATION - Who we are: a first innovation

Fare Comunità is a consortium among different types of organisations:

- Consortium and Social cooperatives: Agape, Sol.Co. Ravenna, Il Cerchio, Zerocento, In Cammino;
- Cooperatives working in the field of research/intervention and territorial stimulation: Libra, RicercAzione;
- VET organisations: CEFAL, Scuola Arti e Mestieri Angelo Pescarini, ENGIM Emilia Romagna.

Our formal innovation: Fare Comunità is the first consortium in Emilia Romagna composed by both social cooperatives and VET organisations, working together for the implementation of different projects with a *participative approach*.

A way for SOCIAL INNOVATION – What we do

WORK INCLUSION POLICIES

-SIL project (with its different declensions /RAM) → the innovation lies on the professional position of “mediation operator” a sort of welfare manager

- IDEALMENTE project is an incubator for people with psychic disabilities → innovative is the model built

DEVELOPMENT OF PROXIMITY SERVICES AND ENTERPRISES

With these activities the consortium operates as an incubator for the birth of activities aiming at implementing local contexts of life – both socially and economically.

Examples are:

- OltreValle community cooperative;
- Centomani proximity store;
- Laboriosamente;
- Coabitare per crescere co-housing

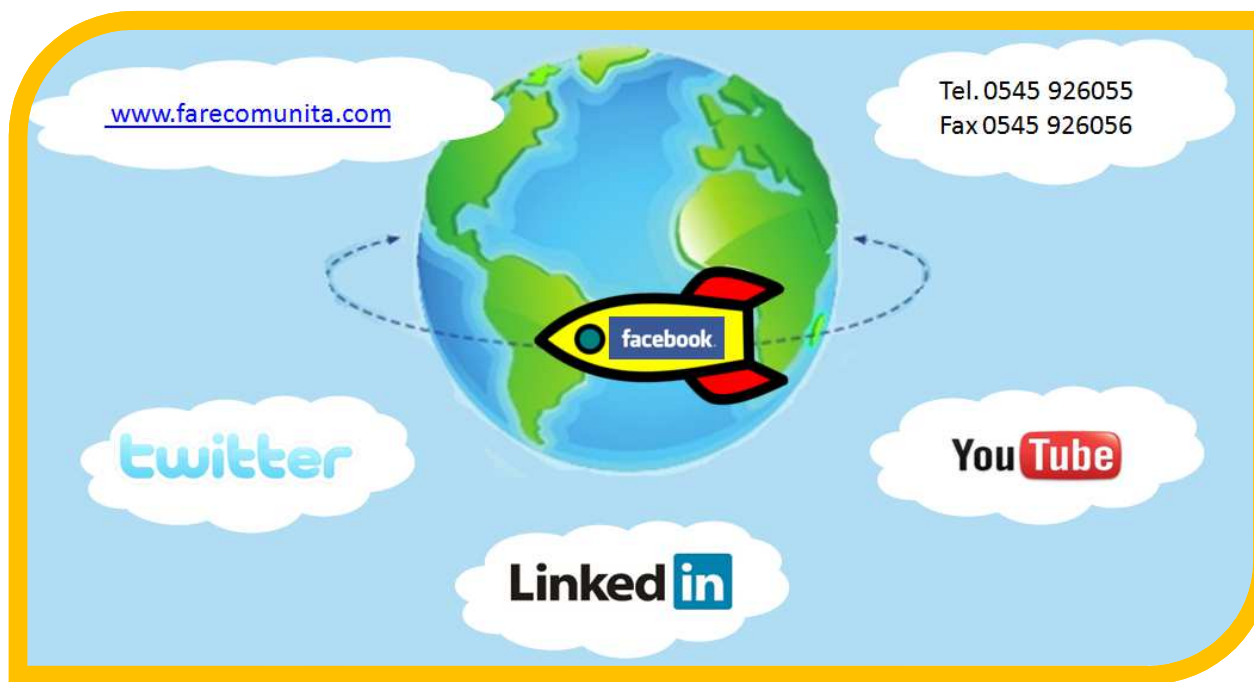

This can be considered *an innovation as a whole*

CROSS-SECTION INNOVATION

A way for SOCIAL INNOVATION – How we communicate that

Another innovation concerns the COMMUNICATION office, dedicated to disseminate the activities carried out by the consortium and its members. In these two years of activity have been realised a lot of communication products.
